

# Why Buy a **WHOLE COW?**

At D'Agata's Fine Family Farm we raise, slaughter and package your beef right here on the farm. We ensure high-quality, farm-fresh beef at an affordable price.

## What our cattle eat :

- From May-November the cattle eat pasture & hay. In the winter the cattle are kept closer to the barn and off the pasture to allow recovery of the forage. Our cattle are fed haylage during the winter and supplemental corn that is grown by us in Suffield.
- We also offer the option to grain-finish. This is will cost extra in monthly payments to even out the added cost of grain and labor. Graining out will likely increase tenderness of the beef.

## It is local :

Buying local supports your community and allows farms and small business stay prevalent in your town. Our cattle live their whole life on our farm & are not transported to be slaughtered. By slaughtering on-farm the cattle feel safe and calm because they are in a familiar, stress-free environment.
